

Category: Electronic Shelf Safe

Web Item #: SF1000

Colour: Beige (as shown)

* Additional colours available upon request with MOQ of x200 units

Description: This safe's user-friendly operation coupled with a high level of reliability and functionality makes it an ideal safe for any application. The electronic lock is programmable with an individual 4 digit PIN code which resets each time the door is opened, making it an ideal hotel safe.

Electronic combination lock with LCD display screen powered by 4 x1.5V AA batteries. Automatic "battery low" message. Quick access battery panel.

Wide enough to accommodate most 15" laptop computers.

Guest programmable 4 digit PIN code with automatic code reset feature when door is opened. Automatic 15 minute lockout after 3 failed opening attempts. ADA compliant keypad.

Motorised locking bolts open/lock the door automatically after entering the correct 4 digit PIN code.

Back -up key and hotel manager master code in case of lock out (2 keys supplied).

Audit trail records the last 200 operations. Optional - Hand held reader (CEU) required.

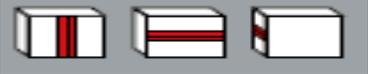

Two (2) solid steel 20mm motorised locking bolts for extra security.

Suitable for mounting to a shelf, wall or floor with pedestal (bolts included).

- Construction:**
- Motorized locking system
 - Cold-rolled recessed steel door
 - 13 gauge steel body
 - Hidden hinges
 - Concealed emergency access
 - Scratch resistant powder coat finish
